*Wed Mar 09 09:25:37 2016*

First function

This function is just a test for R package creation. @param x Argument for [...] @keywords Test @export  
@examples testing\_function\_01(1)

```
testing_function_01 <- function(x){  
  if(x==1){  
    print("Yeah ! you typed 1")  
  } else {  
    print("I don't get it...")  
  }  
}
```
